

REMARKS

The enclosed paper copy of the Sequence Listing includes no new matter that goes beyond the original application as filed, but is supplied as requested by the Notice to File Missing Parts.

The present application is a Continuation of U.S.A.N. 09/448,312 (Allowed), which is a Continuation of U.S.A.N. 08/413,740 ("the '740 application", issued on 1/9/01 as U.S. Patent No. 6,171,859). A paper copy of the Sequence Listing along with a computer diskette containing the Sequence Listing in computer readable format was submitted in the '740 application by predecessor counsel, prior to assumption of representation in that application by the undersigned counsel. No electronic copy was provided by predecessor counsel to undersigned counsel of the contents of the computer diskette that was submitted in the '740 application. Consequently, neither applicants nor undersigned counsel are able to compare the contents of that originally submitted diskette from the '740 application to the paper copy of the Sequence Listing as filed in the present application. Accordingly, submitted herewith by amendment is a paper copy of the Sequence Listing containing what is believed to be a true and accurate copy of the Sequence Listing of the '740 application. Therefore, the amendment submitted herewith, which merely directs the insertion of the Sequence Listing as copied from the '740 application, includes no matter that goes beyond the original application as filed. Applicants respectfully submit that the above-identified application is now in compliance with 37 C.F.R. §§ 1.821-1.825 and WIPO Standard ST. 25.

Respectfully submitted,
Corinna Hermstadt and Soumitra S. Ghosh
